

Year 6 Homework

Please complete a minimum of three tasks per half term. You may present your work in any way that you wish. We look forward to seeing some of your amazing creations.
Send a photograph in by email to enquiry@moorgreenacademy.org. Have fun!

	Option 1	Option 2
Remember	Find out about a recent natural disaster – this could be a tsunami, earthquake or extreme weather event. When did it occur and which country/ies were affected?	How many extreme weather events have occurred in the last 12 months? Is this an increase on the previous 12 months?
Understand	What is a tsunami? How do they happen, how are they measured and why are they so dangerous?	What do governments do to prepare for tsunamis? Do countries in areas more vulnerable have buildings that are designed in different ways?
Apply	Draw a diagram of two tectonic plates. Label your model to show your understanding.	Create an information poster to inform people of the ways they can protect themselves in the event of a hurricane.
Analyse	Which natural disaster had a greater impact on the wider world – The Boxing Day Tsunami or the 2011 Japan Tsunami? Explain your answer.	Which country has provided the most aid to others after natural disasters? What did they do, how helpful was it and what lessons could other countries learn from their example?
Evaluate	“The world responded in a kind and caring way after The Boxing Day Tsunami.” Agree or Disagree? Why?	“The UK is well-prepared for extreme weather events.” Agree or Disagree? Why?
Create	Create a labelled model of tectonic plates.	Create a labelled model of a volcano.
